## TARIFF 16

### DANCE TEACHERS & DANCING SCHOOLS

Tariff for the communicating to the public of sound recordings

Effective from: 1 January 2017 to 31 December 2017.

1. The communicating of sound recordings to the public is a restricted act in terms of the South African Copyright Act and requires a licence from SAMPRA for the use of sound recordings in its **repertoire**. This document sets out SAMPRA's tariff for the communicating to the public of sound recordings as **background music** by **DANCE TEACHERS AND DANCING SCHOOLS** during dancing classes and tuition for individual pupils. Types of dancing covered include ballroom, latin, jazz, disco, tap and other forms of contemporary dance instruction.
2. This tariff is subject to SAMPRA's "General Terms and Conditions for Communicating Sound Recordings to the Public Licences", a copy of which can be accessed on SAMPRA's website or obtained by contacting SAMPRA.
3. This tariff applies to the communicating to the public of sound recordings at Dancing Schools (i.e. dance academy, dance club, dance hall, dance studio) as **background music**. There are specific types of communicating sound recordings to the public that SAMPRA does not classify as **background music** and which are licensed under separate tariffs. Apart from these exceptions, all other types of public performance are classified as **background music**.
4. Penalty Clause – You should obtain your SAMPRA licence before you can publicly communicate sound recordings. If you continue with the communicating to the public without first obtaining or renewing your licence, a surcharge can be added to this tariff. This is designed to act as a deterrent to unlicensed communications to the public of sound recordings.

FOR INFORMATION ONLY

6. Explanatory Notes:

This tariff is calculated on your annual attendance figure per Dance School, Studio or Site. You will need to provide three figures for this tariff so that we can calculate your fee. Accordingly you should enter the number of classes you teach each week, the number of weeks per year in which you teach, and finally the average attendance per class. To see how the calculation works, you should multiply the three figures and refer to the table of charges.

A banded tariff is used in recognition of the way in which you play sound recordings. Often these tariffs are banded according to the numbers of people at an event or the size of the venue, so that the final fee reflects the extent to which recordings are being used.

7. DEFINITIONS:

**“Background Music”**. The playing of recorded music to create an atmosphere or ambience that is not a special feature of, or essential to, the main event or is not essential to the operation of the premises.

**“Repertoire”** means the collection of copyright sound recordings owned or controlled by members of SAMPRA from time to time.
